

INSTRUCTIONS FOR MAKING PRINTABLE TOILET PAPER WRAP

Place double sided tape on the "back side" of the label. Keep as close to the edge as possible. Attach the band to one side of the label by placing the label (with double sided tape) on top of the band. Wrap the band around your roll of toilet paper until it's nice and snug and then slide the band under the left side of the label and press down to adhere the label to the band.
