

Sticky Notes Holder

Printable PDF Pattern

The only measuring you need to do is when you score the base. Everything else is pre-measured.

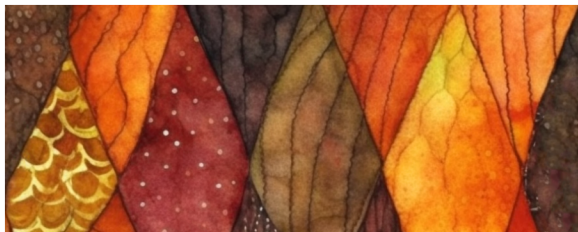

Inspired by Crafternated YouTube Channel's Dollar Tree Sticky Note Holder Tutorial

Top Cover: Use corner punch on left and right bottom.

Top Inside: Use corner punch on top left and right corners.

Bottom Flap Cover: Use a corner punch on top right and left corners.

Base: Tape or glue to bottom of the holder on the flip side of the sticky notepad. (outside)

Bottom Flap Inside: Use a corner punch on top right and left corners.

Print out on to Canon Matte Photo Paper or Epson Matte Presentation Paper (coated paper for photos)

Before gluing down the inside top flap cover place a flat magnet down with double sided tape. Do the same with the bottom outside cover so magnet is under it. Watch video link for how to assemble and place magnets. 11:31 on the video shows magnet placement

Crafternated Video

Top Base

Bottom Base

Glue or use double sided tape to adhere these two pieces together.
(tape or glue on the side with no print)
Take your scissors and trim the bottom base to match the top base.
Score base at $2\frac{1}{2}$ - $2\frac{7}{8}$ - 6 - $6\frac{3}{8}$ Once both pieces are glued
together use a corner punch on all four corners.
